PRASHANT

Software Engineer | Backend Systems
+91-9164661032 | prashantab8505@gmail.com | LinkedIn | Bengaluru, India

Professional Overview

Senior Software Engineer with 4+ years of experience building and scaling backend systems for high-growth fintech platforms. Strong expertise in Go, microservices, AWS, distributed systems, and Domain-Driven Design, with experience leading architectural migrations, NBFC integrations, and high-scale lending workflows. Proven track record of translating complex business and regulatory requirements into scalable, low-latency, reliable, and production-grade systems.

Experience

KreditBee

Senior Software Engineer *03/2026 - Present*

- **Led the migration of lending systems from a tightly coupled monolithic architecture to a Domain-Driven Design (DDD) model**, introducing dedicated domain, service, and gateway layers to establish clear service boundaries and improve maintainability and feature delivery.
- **Mentoring 5 engineers** through code reviews, production debugging, and fund-flow design discussions, reinforcing engineering best practices and improving code quality.
- **Spearheaded the team-wide adoption of AI-assisted development tools**, including Cursor and Claude Code, embedding AI-assisted coding into the engineering workflow to accelerate implementation and reduce developer toil.
- **Managed architectural improvements across critical lending workflows supporting multiple lending products and partner integrations**, improving service maintainability and production reliability.

Software Engineer *12/2022 - 03/2026*

- **Increased co-lending loan volume by 20%** through end-to-end integration of 4 NBFC partners — Tata Capital, OFL, ABCL, and IFMR — expanding the platform's lending distribution network.
- **Designed and built a scalable and low-latency Loan Document Generation service** using HTML templates and a headless Chrome PDF pipeline, supporting RBI-compliant loan agreements across 10 languages.
- **Designed and shipped the Multi-Lender Display feature, owning the server-side business logic** that enabled users to compare and select preferred lenders within a single loan journey.
- **Reduced developer toil by 30%** through backend automation, streamlined API workflows, and targeted system optimizations.
- **Handled production debugging and critical fund-flow issues**, identifying root causes across backend services and improving system reliability for lending workflows.
- **Actively collaborated with product, finance, compliance, and operations teams** to ship RBI-compliant fintech features and circulars on schedule.

Software Development Engineer Intern *04/2022 - 11/2022*

- **Ramped up on the production backend stack - Golang, MySQL, and AWS** - alongside ReactJS for frontend, then began owning small fund-related bug fixes and product tasks independently.
- **Shipped lender website link integrations across the app/website for all co-lending partners, and added fund assignment events to surface fund rejections** and the specific user rule that failed - improving debugging of fund-flow issues.

Skills

Languages: Golang(Go), Python, SQL
Concurrency & Systems: Go routines, Channels, Concurrency, Context, Synchronization, Gin, REST APIs
Backend & Architecture: Microservices Architecture, Domain-Driven Design (DDD), Distributed Systems, Event-Driven Architecture, API Design, Design Patterns & Principles
Cloud & DevOps: AWS (EC2, Lambda, API Gateway, S3, SNS/SQS, CloudWatch), CI/CD Pipelines
Databases & Caching: MySQL, Redis
Observability & Tools: Grafana, Monitoring, Git/GitHub, Postman, Cursor, Claude Code
Core Strengths: Production Debugging, System Reliability, Code Reviews, Technical Mentoring, Cross-Functional Collaboration

Key Achievements

Promoted to **Senior Software Engineer** for driving critical backend initiatives, architectural migrations, and high-impact partner integrations.
Star Performer Award – KreditBee: Nov 2023, Aug 2024, May 2025.
Special Achievement Award – KreditBee: Dec 2022 for backend enhancements and production support improvements.

Education

PES University **Bengaluru, Karnataka**
Bachelor of Technology in Computer Science *Aug 2018 – May 2022*

Alva's PU College **Moodbidri, Karnataka**
PCMB *Jun. 2016 – May 2018*
